If a game requires rules to play, the brain teaser does not. Brainteaser contains conventional questions that sound very easy to answer, but are indeed quite difficult. Because the goal of a brain teaser is to do a teaser on the brain. You can't underestimate and take the Brain Teaser seriously because it usually leads you to the wrong answer. How to solve Teaser? Because Brain Teaser only contains questions and answers, you need a problem-solving solution like answering other questions. To answer a question, you need to have a lot of knowledge. In general, people search the Internet for puzzles. Well, you can read references to Brain Teaser questions on the Internet. Usually the answer will also be included. But if you want to answer it fresh without help from the Internet, you can try to remember the memory associated with the question, and then try to answer it. If this is allowed, ask for a multiple selection in response. What is the hardest brain teaser? The questions of the Brain Teaser have different levels of difficulty. Although it looks trivial, a brain teaser is recognized by a professor who can have a very high degree of difficulty in the question. The hardest brain teaser will usually integrate elements of science into the question. For example, how 3 different gods ask a question. Can you imagine the God who asked the question? While worldliness is something that cannot be answered with logic. But in the end, the hardest brain teaser will give a logical answer, even if we initially deny the question as logical.
